

City Issues Municipal Court Warrant Recall

In light of the legislation that will take effect on August 28, 2015, and in the spirit of the current amnesty activities in the St. Louis area, the City of Warson Woods Municipal Court has ordered the withdrawal of all existing warrants and re-docketing of all cases that were in warrant status. All warrants with the City of Warson Woods Municipal Court have been cancelled, and these cases are being assigned new court dates. The Court will be mailing notices with new court dates to all defendants formerly in warrant status at their last known address.

Any person who had a case in warrant status with the City now has the opportunity to take responsibility, avoid reissuance of an arrest warrant, and address their pending matters with the Court. Any such person who does not receive a letter or who has moved is urged to contact the Court to obtain their new appearance date information. For cases in which defendants do not appear or otherwise address the matter, warrants and show cause orders will be reissued.

This warrant recall only applies to municipal ordinance violation cases as filed with the City of Warson Woods Municipal Court. This also will not apply to warrants the Judge issues after September 2, 2015
