Chief Beaton,

We very much appreciate your email and welcome you to share any and all information you, City Administration, and/or members of your Department may have which would address any inaccurate/incomplete/false representations that have been made to (and potentially relied upon by) our committee - we certainly want to have valid and truthful information to review and dissect before we report on our final conclusions to the WW Mayor, Board and residents.

I know you and Mr. DeClue have been contacted by other members of our committee regarding statistical data (crime stats and patrol hours) and we look forward to learning more on those fronts as well.

Thanks again for your time and attention to this important issue.

Best regards,

Mandy Kamykowski  
WW Ad Hoc Public Safety Committee Member

**Subject:** Glendale Police Department Operations

Dear Warson Woods Public Safety Committee,

We appreciate that fact that you are thoroughly researching a possible police services partnership between the Cities of Glendale & Warson Woods. While monitoring your Ad Hoc Committee meetings, we have noticed many inaccurate and incorrect assumptions about the Glendale Police Department and its operations.

I would suggest that you contact the City of Glendale, specifically the Glendale Police Department, about any matter of our police operations rather than seeking that information from members of the Warson Woods Police Department. Some of the information you have been provided with is inaccurate or downright false.

Please feel free to reach out to Glendale City Administrator Ben DeClue for any inquiries about our police department's operations or other matters in reference to this proposal. He will then forward your requests to me for a response.

Thank you for your consideration in this matter.

Sincerely,  
Colonel Jeffrey Beaton
